The program as outlined by the Canyon and Amarillo Chamber of Commerce includes special days at which time various organizations of the Panhandle will be asked to join.

Mr. Colp will be here a few days in advance of the opening and will work out the details as to water and food concessions. "We will guarantee that food prices will be no higher than in adjoining towns," stated Mr. Colp.

A loud speaking equipment will be installed at the Park for political speeches.

James V. Allred in Appeal to Voters Here Monday Nite

Attorney General James V. Allred talked Monday night at the bandstand on his candidacy for Governor of Texas. He recalled the fact that he is the only candidate for Governor who ever slept a night in the Canyon postoffice, this taking place in 1915 when he arrived here to work on the ranch of Judge Word. He was without funds and was driven indoors by the cold night wind.

Mr. Allred claimed that the other candidates had ganged up on him, and all were fighting him. While he did not call the name of a single candidate for Governor, he made constant reference so that his audience would understand references to the opposing candidates.

He paid particular attention to his youth, and referred to his accomplishments, and the accomplishments of other young men.

Regulation of public utilities, law enforcement and lobbyists were the principle subjects dealt with by the speaker. He claims that 13 billion dollars are being spent annually on fighting crime. 98 percent of the people are called upon to contribute this vast sum to fight the 2 per cent who are criminals. This money amounts to more than is spent on education in America. He blames the pardon system of Texas for the crime which we are having.

Changing the pardon system, increasing the child welfare work and extending educational advantages were given as a cure for the crime wave.

Particular attention was paid to the lobbying system in Texas. He stated that if he was elected Governor that his first message to the legislature would urge the passage of a strong anti-lobbying law.

County Candidates Must File Names By 16th of June

On June 18th the county committee will meet to determine the order in which names will appear on the ballots, and to estimate the cost for having names printed on the tickets. Candidates have until June 25th in which to pay this assessment.

Between June 28 and July 3 all candidates must file their expense accounts with the County Clerk.

Training School to Take More Students During the Summer

Professor F. E. Savage, announced today that more children can be enrolled in the training school, if parents will arrange for them to get started at once.

A number of children can find places in the sixth and seventh grades. The fourth grade is so large it has been divided into two sections and a few more children can be taken there. There is room also for some in the first grade.

The second and third grades are full, according to Mr. Savage.

As many boys and girls as wish to come can be enrolled in the high school department and classes are already arranged in almost all subjects.

There is no fee charged for either grade or high school pupils this summer.

The training school faculty consists of Superintendent Savage, Miss Ritchie, Miss Helen White Moore, Mrs. Montfort, Mr. William Anderson, Mr. R. B. Underwood, Miss Jean Moore, Mr. Goodman, Miss Goodman, Miss Mae Simmons and Miss Ruth Lowes.

Monument Honoring Fronabarger Raised By Former Students

An impressive ceremony was held at Springtown Saturday when a monument was unveiled honoring Rev. B. F. Fronabarger and other educators who had conducted colleges in that town in pioneer days. None of the members of the Fronabarger family were able to attend the ceremony. Mrs. Fronabarger had been called by the death of her sister only two weeks previously.

Governor William H. Murray of Oklahoma made the principal address. He was a student in one of the colleges in Springtown during his boyhood. In his characteristic manner, Governor Murray declared: 'There is too much baseball and highballs in the school today. The human brain is filled with so many discovered facts that it no longer has room to manufacture."

Rev. Fronabarger died in Canyon April 27th. His former students had hoped he would live to attend the unveiling of the monument erected to his memory.

Terry Mayben Has Leg Broken Falling From Pole

A light shower of .11 of an inch fell Sunday night in Canyon. The rain varied in all parts of the county, some sections not receiving a shower, while other sections received a very good rain.

Relief May Give Aid Here

RANDALL ADDED TO DROUTH AID AFTER PROTEST

No Word Received as to Nature of Work in County

NO PROJECTS SET UP

People Wonder If County Is Fooled Again In Announcement

No information has been received here regarding the new drouth work relief program which is supposed to become effective in the Panhandle tomorrow.

In spite of the various agreements regarding the special $8,900,000 set aside for Texas last September, when Harry Hopkins announced the program for the drouth territory on Friday, the Panhandle was not included in the work relief which he advocated.

Protests from Congressman Marvin Jones and Senator Tom Connally added five Panhandle counties to the set up on Saturday. On Monday other counties were added, and county administrators were wired asking the number of men who would be available for work. Announcement was made that the new program would start Friday

However, H. S. Strain, Randall county administrator, has received no further word from Austin other than the request for the number of men who are now receiving direct aid and will be available for labor.

No work has been done in Randall county for several weeks, although direct aid has been given to more than 100 families. Efforts have been made to secure the approval of the Goodnight Trail for a work project, but so far nothing has been done toward this project.

RAY BENNETT CHILD KILLED IN ACCIDENT

The young daughter of Mr. and Mrs. Ray Bennett of Dumas was killed recently when she was thrown from a horse. Mrs. Bennett was formerly Miss Hazel Park of Canyon.

E. O. Northcutt Is Candidate For District Judge

E. O. NORTHCUTT

Judge E. O. Northcutt of Amarillo has authorized The News to make his formal appeal as a candidate for District Judge of the 47th Judicial District. Judge Northcutt was a candidate for District Judge four years ago for this office and carried Potter county by a good majority. He is inviting the voters of the district to thoroughly investigate his qualifications, and believes that the endorsement of the people of his home county four years ago recommends him to the voters in Randall and Armstrong counties in the present campaign.

The announcement follows:

In making my appeal for the office of District Judge of the 47th Judicial District, composed of Randall, Armstrong and Potter counties, I am not unmindful of the high duties and grave respon-

ASK RANDALL BE INCLUDED CATTLE DEAL

Telegram Directed To Washington Last Night

MANY IN PROTEST

Government Buying Cattle in Other Drouth Sections

A strong protest was made yesterday by citizens of Randall county that this county be included in the government's cattle buying program of the drouth section. A telegram was directed to the agricultural department at Washington urging that Randall be included with the seven counties which will participate in the cattle buying campaign.

Attention was directed to the conditions in Randall county. That the county was in the fourth year of drouth; that there was no submoisture; that only 11 inches of rain fell last year and that the rainfall this year was far below normal. The outlook for a 1934 crop is not promising.

Randall was placed in the secondary list of counties to be assisted in the cattle set-up, but this means nothing, as cattle will be bought at the present time, only in the counties chosen for immediate assistance.

County Agent W. H. Upchurch spent yesterday in Amarillo securing information regarding the new set-up, and expressed hope that Randall county be included in the list of counties for immediate action.

ALBERT TERRY RETURNS FROM TEMPLE

Mr. and Mrs. Albert Terry returned Monday night from Temple, Texas where Mr. Terry underwent an appendicitis operation a short time ago.

Cook Book Recipes and Advertising Closes Monday

Women of Randall County who wish to have recipes printed in the Canyon News Cook Book must have their copy delivered to this office on or before next Monday, June 11. The book will be compiled early next week, and will be printed and ready for distribution before the first of July.

Advertising is being accepted in a limited amount in order to cover the actual expense of covering the printing. These books will be bound in a good heavy cover, which will be adequate for use by the women of the county for many years. Candidates who desire announcements in the Cook Book may see the advertising manager at once, but solicitations of candidates will not be made.

Receipts are limited to women living in Randall county.

In case of duplication on recipes, the ones received first will be accepted.

Many recipes are now on hand which have not been printed in The News, but which will appear in the Cook Book.

The party was on its way from their home at Pleasant Gap, Pa., to visit in the Haines home. They were travelling in a new car, and from the reports received here, the accident was caused by a blow out. The party had planned to reach Canyon today to celebrate Mr. Musser's birthday.

FIRST WEEK TO SHOW INCREASE OVER TERM 1933

960 Are Enrolled in W. T. First Three Days

ONLY 930 IN 1933

704 Enrolled Last Year During First 3 Days

With 960 program permits already issued the enrollment at the West Texas State Teachers College, indications are that the summer attendance will reach a new figure. An unusually large number of men and a great number of students from distant parts of Texas are noticeable features of the student body.

The total registration for the first three days of last summer was 704, and the total attendance for the summer was 930.

Capitalizing the cool climate of the high plains region, this college is eaturing recreation activities as well as class room work. The Palo Duro State Park will be utilized as a play ground, and physical education credits may be earned by horse-back riding along its bridal paths. Swimming, tennis, baseball, hiking, basketball, and play ground games will be other features of the physical education program.

Visiting faculty members include Dr. Fred C. Ayer and Dr. Arlin Turner of the University of Texas, Dr. Alonzo Myer of New York University, Dr. James K. Greer, Birmingham, Alabama, Professor W. A. Brown, Nacogdoches, Texas, Miss Effie Rogers, New York, Miss

Goodnight Trail is Opened for Traffic to Palo Duro Park

The Goodnight Trail is open from Canyon to the Palo Duro State Park. Traffic was allowed to cross the bridges on the Tierra Blanca bridge and the Timber Creek bridge this morning.

E. H. Gohmert remained over until this morning in order to complete the back fills before retiring from the service of the State Highway Department. He was instructed by District Engineer W. J. Van London to hire the steam shovel outfit which has been used at the Park in order to speed up work on the Timber Creek fill. Major E. A. Kingsley assisted in this work by loaning three trucks to the highway department in order to complete the bridge.

Local men were employed to fill on the Tierra Blanca, and the first traffic went over this bridge Sunday. However, the contractor has some work yet to be done on this bridge, which will require a week or ten days more.

Nothing has been received in the way of definite information as to the completion of work on the Goodnight Trail. The east end has not been covered with caliche, and all of the Trail must receive the topping of asphalt. Mr. Gohmert has submitted a number of estimates for the completion of the Trail, but so far nothing definite has been decided.

MR. ALLRED SPEAKS

Attorney General James V. Allred spoke here Monday night in his campaign for Governor of Texas. He is one of the fastest and most impressive campaigners Texas has ever had. He appears to his audience in a most magnetic manner. That is the reason he is looked upon as the likely opponent of Clint Small in the second primary.

Every candidate must toot his own horn, or it will not be tooted.

Every candidate is expected to present all of his strength, and forget his weaknesses.

Therefore the voter owes it to himself to listen respectfully to what the candidate has to say, consider the fact that he has heard only one side of the argument, wait until the others have been heard, and then make up his mind as to which one of the candidates is in position to make the best official.

It does not take much analysis of Mr. Allred's speech to determine the fact that he is skillfully setting up a straw man, and then tearing into it with all the vim and vigor which he possesses.

Fighting utilities is always the popular thing to do. It used to be railroads; now it is the power and gas utilities which receive the lambasting. If every one of us could get the utility rates which we believe to be fair, the companies would be immediately bankrupt. But the depression bowled over the big expansive utilities, wiping out thousands of stockholders, and as a result the utilities are in bad with the public. Mr. Allred is taking advantage of this situation.

Another bogy is the lobyist, regarding which Mr. Allred is much concerned. This sort of fight appeals to the popular misinformation regarding the legislatures and regarding congress. Many people are actually convinced that the lobbyists are running the nation. If that is true, then the people alone are to blame for electing weaklings to the law making bodies. Unfortunately for Mr. Allred, he is making charges against the law makers which will be resented by the able men and women who serve in the law making body, and who are above any temptation which might come to them from lobbyists. If he is elected, he will find himself immediately in a fight with the legislature and unable to write any of his proposed bills into the statute books. It is the legislature which passes laws; not the Governor. A Governor who is able to get along with his legislature accomplishes a lot of good; the one who starts out fighting the law makers finds his hands entirely tied. At any rate, the people are more concerned with electing a Governor than they ever are about electing a legislature. If legislators have sold out to the lobbyists, then the people are to blame for not havng elected men unon whom they can depnd.

Posing as a martyr is another fine method of a successful stump speaker. Mr. Allred does this most successfully. He knows the art.

So far as Canyon is concerned, he did not refer to the standing of the West Texas State Teachers College. A definite statement to his attitude on this institution must be extracted before the citizens of Canyon will feel greatly interested in his campaign.

After seeing and hearing Mr. Allred, one does not wonder that it is generally agreed that the man who beats Allred will be Governor of Texas.

The voters are urged to hear the candidates, give them a respectful and attentive audience whenever they come to Canyon. The first state candidate to visit Canyon did not receive so large an audience as he was entitled to. It matters not whether the voter is for the candidate or not, much valuable information is given by each candidate who visits Canyon. It is said that small crowds are meeting the candidates upon every hand. The newspaper reports and the radio talks of the candidates are keeping the people at home. The voter must expect that the candidate will make his own case as forceful as possible, but nevertheless, any man who is ambitious enough to tackle a state-wide race in a state the size of Texas has something worthwhile to talk about. Let's go out and hear the candidates. The time will not be entirely lost.

Will relief work start in the Panhandle Friday, or is this just another one of the empty promises which have been coming out of Austin and Washington? After all of the promises, starting last September, Mr. Hopkins failed to place the Panhandle in the first allotment for drouth relief on Friday, but made the promise in a supplemental statement on Monday. The Panhandle will believe that something is to be done when work gets under way.

Payment of delinquent taxes before the end of June is a good business proposition. Starting with the first of July, penalties and interest charges will greatly increase. It is found that $100 delinquent taxes, if paid during June amounts to only $106, while if allowed to go over into July will amount to $170. It will pay to settle up with the tax collector and avoid the heavy penalties which will be imposed after this month.

The Supreme Court has ruled that Speaker Coke Stevenson did not have the authority to oust R. L. Holliday as a member of the State Relief Commission and to appoint Julius Dorenfield of Amarillo in his stead. There has been a continuous row in this relief business, and all Texans will be happy when conditions warrant the abandonment of this sort of aid.

In Some Ways This Bank is Like a Country Store

The old-time country storekeeper was a good judge of human nature. He had to be. He got many requests for goods on credit and he needed to know—and usually did know—when to say "yes" and when not to.

Modern banking, despite advanced bookkeeping and adding machines, is a human business, too. To protect his depositors, a good banker relies on not one but several sets of dependable factors when considering a loan.

But, if he is wise, he looks beyond what mere statistics tell him. He learns to size up his man. He makes it a point to know as much as he can about his applicant's ability, energy, integrity and sense of responsibility. For figures may occasionally mask the truth. You can't juggle human nature.

Here at the First National Bank we never depend entirely upon machine-made statistics where our depositors' money is concerned. We always make our decisions in the light of what we know of a man's character.

NOTICE

TO DELINQUENT TAXPAYERS OF RANDALL COUNTY

The following communication from the office of the Comptroller of Public Accounts, at Austin, will be of vital importance to delinquent taxpayers in Randall County:

To The Tax Collector:

You will recall that from time to time since 1930, the Legislature has been suspending interest and penalties on delinquent taxes. Last May, the last measure of this kind was enacted, which provided a 2% penalty on all advalorem taxes delinquent on February 1st, 1933, (later they included the split tax payments which became delinquent on July 1, 1933,) if paid by December 30, 1933, and 4% penalty, if paid by March 31, 1934; and 6%, if paid by June 30, 1934. After this June 30, 1934, expiration date, the old law prescribing 10% penalty and 6% interest per year, will again be in force.

This means that on and after July 1, 1934, this year, the penalty and interest you will be required to charge will not be 6%, but will include 6% interest per annum from the date it was first delinquent, plus 10% penalty. For Example:

30% will be added to 1930 delinquent taxes
24% will be added to 1931 delinquent taxes
18% will be added to 1932 delinquent taxes

(A delinquent cost will also accrue in addition to above)

Inasmuch as the taxpaying public may not understand the law, I suggest that you give this matter as much publicity as possible, in order to bring to the attention of the taxpayer the great saving, if they take advantage of the remaining period, which expires June 30, 1934.

Yours very truly,

(Signed) GEO. H. SHEPPARD,
Comptroller of Public Accounts

W T Commencement Closes Regular Session Work Thursday

With Ex-Senator R. A. Stuart of Fort Worth delivering the address, 87 seniors of the West Texas State Teachers College received their degrees Thursday. Mr. Stuart, a graduate of the institution with the class of 1912, took for his subject "Where Do We Go From Here?" He declared that, despite the fact that more progress has been made in the last 30 years than in all time before, 1933-34 will be looked upon as the darkest period of American History. He said that inventions have been made so much more rapidly than they could be made use of that the welfare of the people had constantly been retarded in order to save property which ought to be junked for the good of all.

Developing his theme, he said, "The disappointing thing about the brain trust which President Roosevelt has gathered around him is that the men who compose it have purely academic knowledge and little acquaintance with practical affairs and that no real new deal is possible in the United States until we have qualified office holders to put it into effect.

"Our present society is now infested with two boll weevils," said Mr. Stuart. They are war and greed. War will be eliminated when everybody and everything is commandeered for the service of the Nation. Greed can only be eliminated through Christianity, "for you cannot legislate the Golden Rule," said he. He added that Christianity is at its lowest ebb in America today and a great revival is needed if our nation is to be saved. To the graduates of Colleges throughout the world he threw the challenge of creating a new social order out of chaos of the present.

Degrees and Awards

Following the commencement address degrees were conferred by Dr. J. A. Hill, President of the West Texas State Teachers College.

Awards were made to William Britton, freshman student of Olton, Texas for the best service on The Prairie, the student newspaper. This award is made annually by Olin E. Hinkle of the Pampa Daily News. To Miss Isabell Price of Quitaque was awarded the Mary E. Hudspeth scholarship of $100 given annually to the student showing greatest promise in the field of Spanish.

Ex-Student Meeting

Immediately following the commencement exercises, exstudents gathered at Cousins Hall for their annual luncheon and business meeting, with the class of 1932 in charge of the social program and T. H. McDonald of Pampa, president of the Ex-Student Association, presiding, at the business session.

A new constitution was adopted and the Association's objective for the coming six months was named as 1,000 members by the Silver Jubilee set for October 19-20.

Superintendent J. B. Speer of Morse was elected president with Herschel Coffee, Canyon, vice-president and Lee Johnson, Canyon, secretary-treasurer. Wayne Eubanks of Friona and Thelma Brummett of Canyon were given places on the board of directors.

Degrees were conferred upon 25 Canyon students in the 1934 class. These students are Mary Lee Cooper, Martha Nell Lang, Mrs. Maxine McCarty, Lois Bell McCaslin, Verna Amiott Moore, Pauline Presley, Bettye Sternenberg, Florine Bowman, Ethel Brasuel, Leo A. Cooper, Willie Amogene Fowler, Melva Imogene Gamewell, Mary Helen Gill, Dorothy Vernon Gore, L. G. Harris, Elsie Novalee Hickox, Winnie Pool Hinson, Beryl Hixson, Virginia Jarrett, Osce Mills McCreley, Leroy McDaniels, Cora L. B. Newson, Robert Rowan Jr., C. A. An ELECTRIC Refrigerator Makes a LOT of Food Cost LITTLE

You know of the CONVENIENCE of electric refrigeration . . . the safeguards it places around the HEALTH of your family . . . but don't overlook the ECONOMY of electric refrigeration. Convenience and health come first, of course, but ELECTRIC refrigeration enables you to save a good portion of your food bill each week.

Here are a few ways you save with an electric refrigerator:

1. Take advantage of "specials" on perishable foods and buy enough to last a week.
2. Buy in larger quantities when the signs say "10c . . . 3 for 25c."
3. Make frozen desserts instead of serving purchased desserts.
4. Confine your refrigeration costs to just a few cents a day on your electric service bill.
5. For a comparatively small sum you can own a 1934 model electric refrigerator, and your electric refrigerator dealer will arrange terms to suit your convenience.

And these are just a few of the savings. That half-bottle of milk, the left-overs from yesterday's dinner and other foods often thrown away because of spoilage are saved in an electric refrigerator and can be made into appetizing dishes.

At Their Present Pace, "Rabbit" Warstler and Eric McNair of the A's May Hang Up New Double Play Mark This Year

If they keep up their current pace, Eric McNair, above left, and "Rabbit" Warstler, Athletics infielders, may set a new mark for double plays this season. In center is John Lyman of Stanford, and at right, Jack Torrance of Louisiana State, who will put on a thrilling scrap for shot put honors at the N. C. A. A. meet soon.

BY PHILIP MARTIN

TWO gents who play ball for Connie Mack are putting on a show that, before the season is over, may bring a new record for double plays.

The men in question are "Rabbit" Warstler, former Red Sox infielder who came to the Athletics in the deal that sent Lefty Grove and others to Boston, and Eric McNair. Warstler was believed by baseball seers to be all washed up as a major leaguer; in fact, it was freely predicted he would skid to the minors before the close of the current season.

When Dib Williams, the A's regular second baseman, was injured, the Rabbit stepped into the breach and, with McNair, one of last year's holdovers, has been putting on the snappiest display of infielding seen around Philly since the halcyon days of Barry and Collins.

If the pair continue to make twin killings at their present hot pace, they're a cinch bet to wind up with a new record of more than 200 double plays.

• • •

THE much-vaunted shot put duel between Johnny Lyman of Stanford U. and Jack Torrance of Louisiana State will grab the spotlight when 200 star performers gather at Los Angeles June 22-23 for the N. C. A. A. track and field championships. It should be a highly dramatic contest, with the winner a toss-up.

Torrance, the man-mountain, has made 55 feet 1½ inches. Lyman's best throw was 54 feet 1 inch.

In a relay carnival at Lafayette, La., at the start of the present track season, Torrance broke all official and unofficial records with a heave of 53 feet 6 inches. A few weeks later he junked this mark by tossing the shot a half inch further at Baton Rouge.

But this mark didn't last long. Less than two hours afterward, over on the west coast at the Stanford-California meet, Lyman put the shot 54 feet 1 inch.

Nor did Lyman's record last long. The following Friday, in the Drake relay prelims, Torrance heaved the lead 55 feet 1½ inches.

Both boys will be all keyed up for the N. C. A. A. party, and a thrilling duel should result.

Iowan New U.S. Education Chief

Here is John Ward Studebaker, superintendent of Des Moines, Ia., schools, who has been appointed United States Commissioner of Education. On Sept. 1, he will take office, succeeding Dr. George F. Zook, who resigned.

Wayside Items

Good rains are falling in different localities. Some hail in places. No damage done that we know of.

Considerable fruit is falling. We are ignorant of the cause. Apples the worst. Best prospect for peaches than for a number of years.

Misses Lorine McGehee and Emma Brosam reached Wayside Friday afternoon from Jerome, Arizona.

This is the second week of the Methodist revival. Rain has interfered some. Very good attendance. All were rejoiced Monday after a testimonial meeting when five children professed. They were Lucille Moore, John Ellis Culwell, Billie McGehee, Jessie Chloe Payne and Novella Byrd. Last named is a visitor in the J. E. McGehee home from near Clovis, N. M. Meeting is planned to continue through this week.

Mrs. H. H. Allen and son Gomer Ray, from Earth, visited Wayside Friday afternoon. Mrs. Allen returned Saturday. Gomer Ray remained, leading in song service. He is with his father, Rev. H. H. Allen and spends the nights at Mrs. W. I. Lane's.

Mrs. M. B. Moore, who has made an extended visit in Knox county returned home Friday. Her son Glen Moore and wife came with her. They will return soon. They report the weather disagreeably warm in Knox county.

Rev. N. S. Daniels, wife and three sons occupy one of the school rooms at night. They report it is quite convenient.

J. E. Culwell, son Dale, Mrs. Dallas Culwell and babe, and her sister, Mildred Moore, left for New Mexico Sunday. Expected back Monday.

Sunday, June 3rd was Rev. Lindley's regular appointment. He came up from Tulia, but very courteously gave way to the Methodist revival.

Wheat is very good in these parts. Beginning to change color.

Memorial Day was fittingly observed at Wayside. A large crowd in attendance—quite a goodly number of old timers. Rev. H. H. Allen gave a pleasing address, after which a number of readings from those nearby and some visitors. For some years flowers have been scarce, but this year were in abundance. All the graves were cleaned off, rounded up and decorated. Grounds were burned off last year, destroying most of the weeds.

For Your Inspection

THE MERCHANT and manufacturer who advertise, actually are placing their merchandise before you for inspection. They invite your most critical attention and an uncompromising comparison. And their advertisements, so to speak, say to their products: "We have introduced you to the public—now stand on your own merits."

If the manufacturer and merchant did not have confidence in their wares, they would hesitate to call attention to them. For advertising rigidly tests the maker, the seller and the merchandise. Business so tested, and found not wanting, is prosperous.

In the long run, you can depend on the man who advertises, as well as on his product. That is one reason why people have found that it pays to read advertisements.

It is thru advertising that the excellent things of the world are brought to the attention of those who are seeking for the best and most economical way to spend their money.

Read the advertisements. They are NEWS.

'New Deal' Brings Avalanche of Mail To the White House

JUDGING from the huge pile of mail President Roosevelt gets each day, almost everybody aspires to be a "brain truster." A flood of letters and telegrams averaging 16,000 daily brings advice and appeals from all parts of the United States, and even from abroad.

Some letters want the chief executive to congratulate the proud father of triplets, or an elderly pair celebrating their golden wedding anniversary. Others ask for jobs, or some sort of financial help.

Still others—these are in the majority—tell the president just exactly how best to run the country, and hasten prosperity's return.

Very few of these free suggestions are new; and few of those that are new have the merit of soundness. But a surprising number survive government department heads to reach the president and be sent away with a penciled "Please make memorandum. F. D. R."

People have always written great reams of letters to every president. But none of them has ever received nearly the amount of fan mail which staggering postmen now bring regularly to the White House.

Ira Smith, veteran mail room head at the executive mansion, has never, up to this administration, needed any help to handle presidential mail. And he served all the presidents back to McKinley.

Now he has to have 16 college-bred assistants to aid him. And additional help is needed, for which the White House offices may have to be enlarged this summer.

• • •

SINCE March, 1933, something like two million letters and telegrams have been sent to President Roosevelt. There are perhaps two main reasons why so many of his citizens want the chief executive for a "letter pal."

He entered office at a time when the nation was in a critical condition, and Americans were nearly ready to despair. His stirring inaugural speech, and his immediate, decisive steps to meet the emergency centered the hope of almost every person in the country on his leadership.

When he went on the air to address the nation at large, his simple, direct frankness and personal charm fascinated and attracted to him thousands of people, many from opposite political camps.

It is little wonder, then, that so many of his constituents feel that they can write to him as they would to a friend.

Ira Smith, above, White House mail room head, never needed help when he handled the mail for Presidents McKinley, Theodore Roosevelt, Taft, Wilson, Harding, Coolidge, and Hoover. But he's needed 16 assistants since Franklin D. Roosevelt came into office.

Clint Small Will Discuss Crime In State Radio Talk

Fresh from a week's strenuous campaigning in Southeast Texas the past few days, Senator Clint Small, candidate for Governor, returned to the north end of the state Monday. His itinerary had taken him into most of the counties between San Antonio and Houston and south along the Gulf Coast. In this region where four years ago he got very few votes he was greeted with wide assurances of support from public and press alike. Numerous newspapers are committed to his candidacy and this time he has pledged pluralities in many of these counties.

He made three night speeches during the tour and was greeted with satisfactory response. On each occasion the promptest response by way of applause came for his pledge that, when he is elected governor, persons who are convicted of crimes of violence will stay in the penitentiary once they get there.

His promise of maintaining a minimum 7-months $16 per capita school status, his method of making special state departments self sustaining to reduce the ad valorem tax immediately and his plan for reform in the courts and a reduction in their cost brought many expressions of approval.

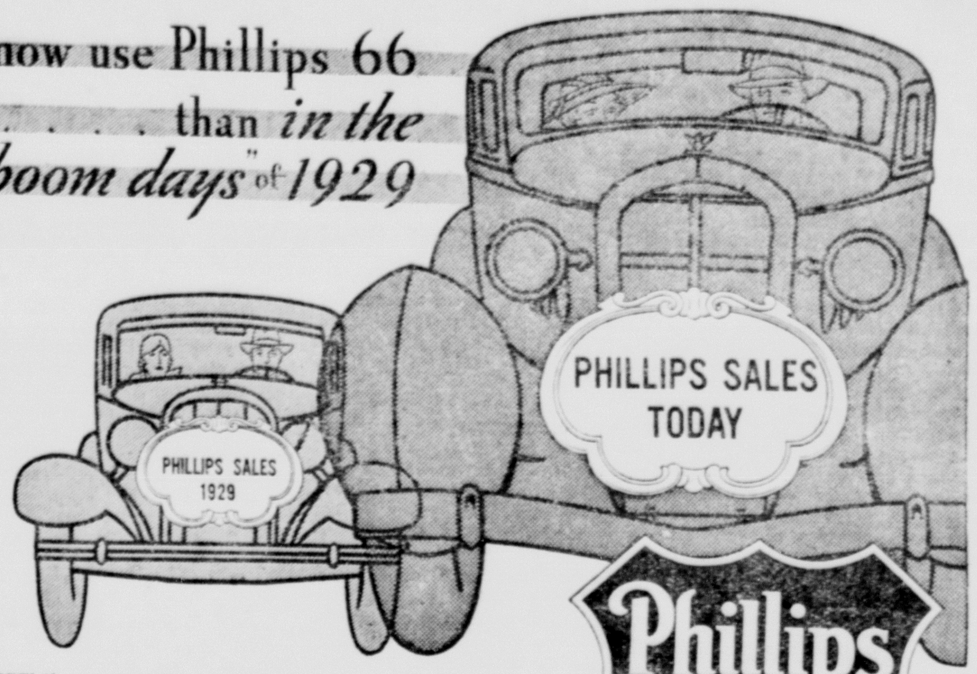
During the current week Senator Small, after opening with a speech at Cleburne Monday and a radio address at Fort Worth Tuesday night, was to spend the remainder of his time in the section surrounding Waxahachie, Hillsboro, and Ennis.

His only announced formal date is at San Antonio June 14 when he will address the people of Texas over a state-wide radio hook-up on "The Crime Trust in Texas."

We don't believe that opportunity knocks around with the other knockers.

100% MORE MOTORISTS

now use Phillips 66 . . . . . than *in the "boom days" of 1929*



While practically all businesses were showing sharp decreases, sales of Phillips 66 gasoline were steadily climbing—until today they are exactly double what they were during the 1929 buying spree!

Could there be any more impressive tribute to the *honest* high test quality of Phillips 66? By sheer force of motorists' demand for this new-type gasoline with CONTROLLED VOLATILITY, it has risen to dominant position, has become the most talked about motor fuel.

The easy way to find out which gasoline gives most power and miles . . . more flexible response to the throttle . . . sweeter running and saving . . . is to compare gasolines right in your own car. Get gas at the Orange and Black 66 shield. Then just *feel the difference.*

Wins 500-Mile Auto Race

By averaging 104.865 miles an hour, he broke the record set by Lou Meyer in last year's classic.

I am a native born Texan and am 43 years of age. I have attended the public schools of Amarillo, later graduating from the University of Oklahoma.

A good District Judge must be unbiased and free from prejudices; his moral character must be above suspicion; his integrity should be beyond question; his duty is plain—he must rule right.

My seventeen years' experience in both civil and criminal practice has given me the correct viewpoint to so conduct court, to rightfully use the powers vested in a District Judge that justice will be insured, to best conserve time to jurymen, and dispense with useless technicalities.

In asking for the office of District Judge my desire is to serve the people of this district and state—the honor and compensation is sufficient reward to require my best efforts.

I take this method of appealing to the voters for the office, and trust that I may see each voter before the primary of July 28th and discuss with you my qualifications to serve you as District Judge.

Common Schools of County Show Smaller Number Pupils

Thirty less pupils for the common school districts were found this year by the enumerators than were enrolled last year according to the report which has been compiled by Judge S. B. Government Loans to Randall Farmers Over Million

A total of $1,156,400 of Federal land bank and Land Bank Commissioner's farm mortgage loans was made in Randall County, Texas, from June 1, 1933, to May 1, 1934, according to the Farm Credit Administration, G. G. Foster, local secretary.

Of this total, farmers in Randall County used approximately $1,110,100, or 96 per cent to refinance their indebtedness. By refinancing, farmers obtained new mortgage loans which they used to repay their old debts. They generally reduced their annual interest charges in doing so. In a number of cases, scale-downs of indebtedness occurred in connection with the new loans. These and other advantages benefited farmers primarily. Secondarily, creditors benefited from the receipt of cash or bonds in exchange for obligations they held.

Of the loan money used by farmers in Randall county for refinancing their debts, about $371,200, it was estimated, repaid their debts to banks; $315,700, their debts to insurance companies; $24,300, their taxes; $398,900 their debts to "others," or creditors not separately classified, including private mortgage lenders, mortgage loan companies, retired farmers and many others to whom farmers were in debt.

A total of about $46,300 of loans in the county was used for purposes other than the refinancing of borrowers' debts. Of this sum, $4,600 was used for the purchase of land and equipment, the construction or improvement of buildings, and for general agricultural uses, including the provision of capital, while $41,700, the balance, was used for the purchase of stock in national farm loan associations, for loan fees, etc.

Through the United States approximately $675,000,000 of land bank and Commissioner's loans were made from June 1, 1933, to May 1, 1934. Most of these loans were made to refinance debts resulting from the long period of low farm income.

Mrs. W. C. Meyers and son Billie Joe and Mrs. Anice Combee of Lubbock are visiting this week at the parental Will Meyers home.

Miss Evelyn Shanklin is at home now after her year's school work at Pampa.
